

PURPOSE

Our purpose is to help **researchers and academics** to capitalise data and information they obtain, to have tools, skills and know-how for participation in policy making processes, and also to gain knowledge on their role within the social entrepreneurship ecosystem. Our main focus is to help **social business support organisations, advocacy organisations, policy creators and decision makers** by having access to the raw data and functional information, by gathering knowledge on the social and solidarity economy in order to develop new impact oriented and ecosystem building projects, programmes and policies.

VISION

To develop a robust, collaborative and harmonized ecosystem of social and solidarity economy in Serbia.

MISSION

Connecting and empowering key players of the social and solidarity economy in Serbia.

TYPE OF ORGANISATION

Intermediary, ecosystem builder.

SOLUTION, OUR SERVICES

- Continuously updated *database of SEs in Serbia*
- *Most quality research products* (yearly report on the SE sector development, ESEM report, policy briefs, policy studies, fact sheets, market studies, social impact reports, etc.).
- *Development, facilitation and leading advocacy processes*
- *Guidelines, Curricula and Training* (finance and non-finance support programs for SEs, sustainable public procurements systems, etc.)
